

# Noor ul Huda: Cyber Security Internee Batch 27

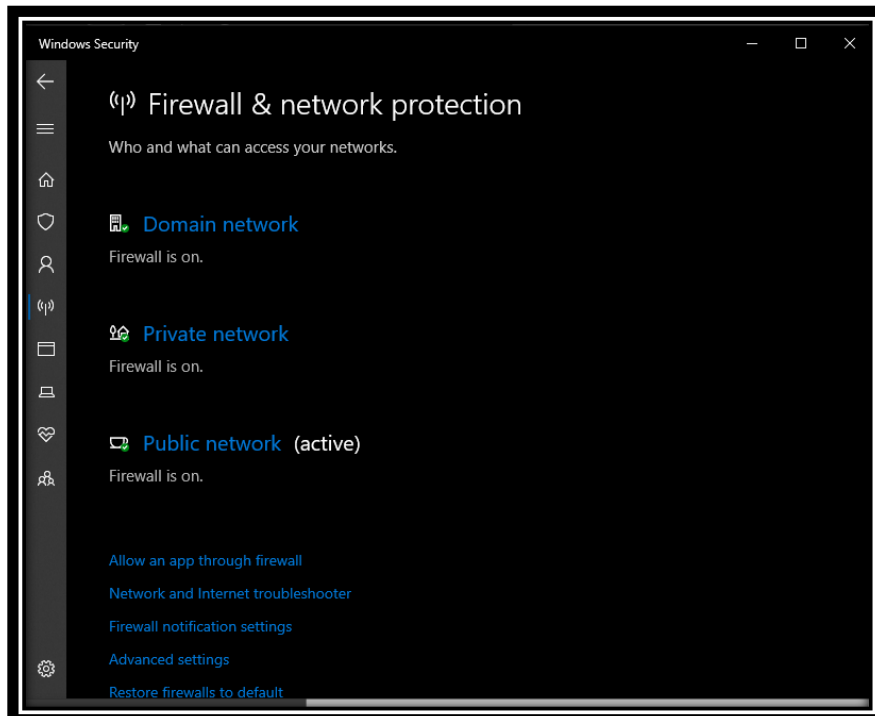

## Basic Tasks:

### Task 1:

#### Step 1: Open Windows Security App

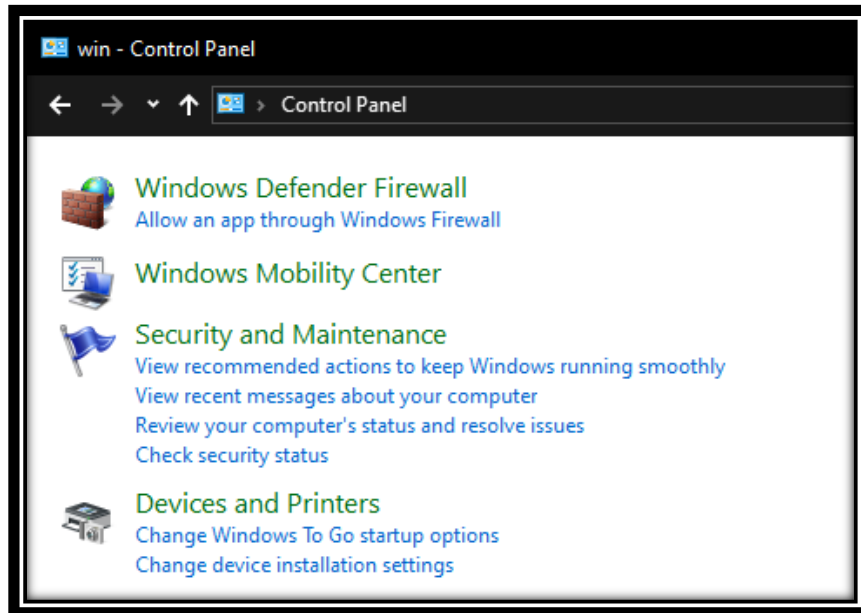

#### Step 2: Open Firewall & Network Protection

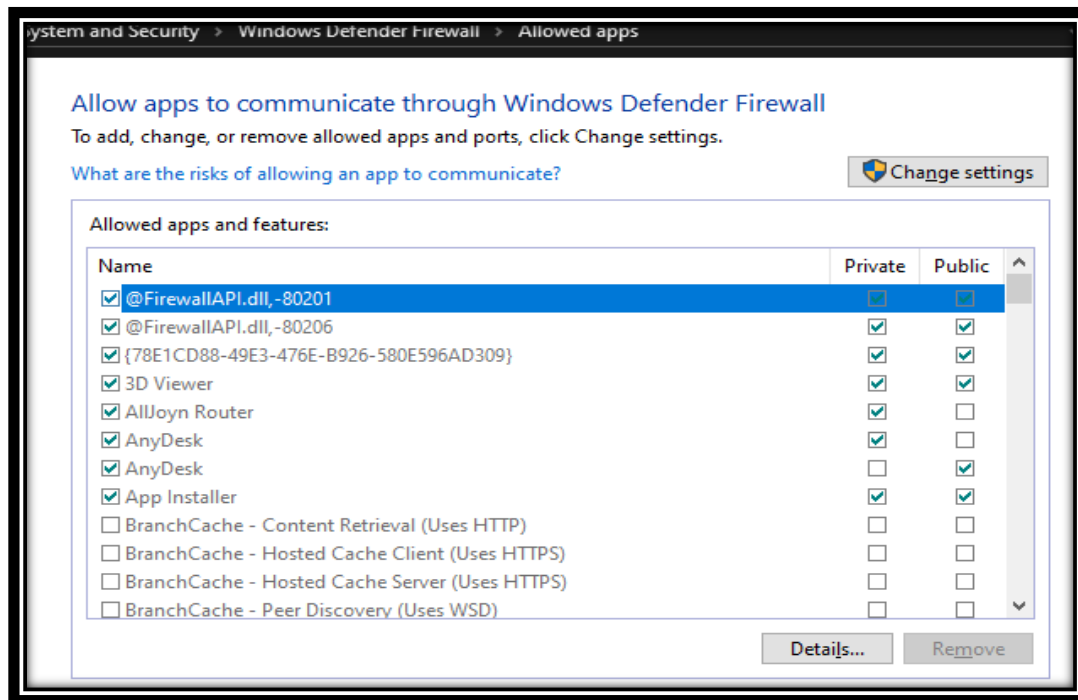

# Noor ul Huda: Cyber Security Internee Batch 27

## Step 3: Allowing or Denying an App using Firewall

Open Control panel:

Click on Allow an app or feature through Windows Defender Firewall:

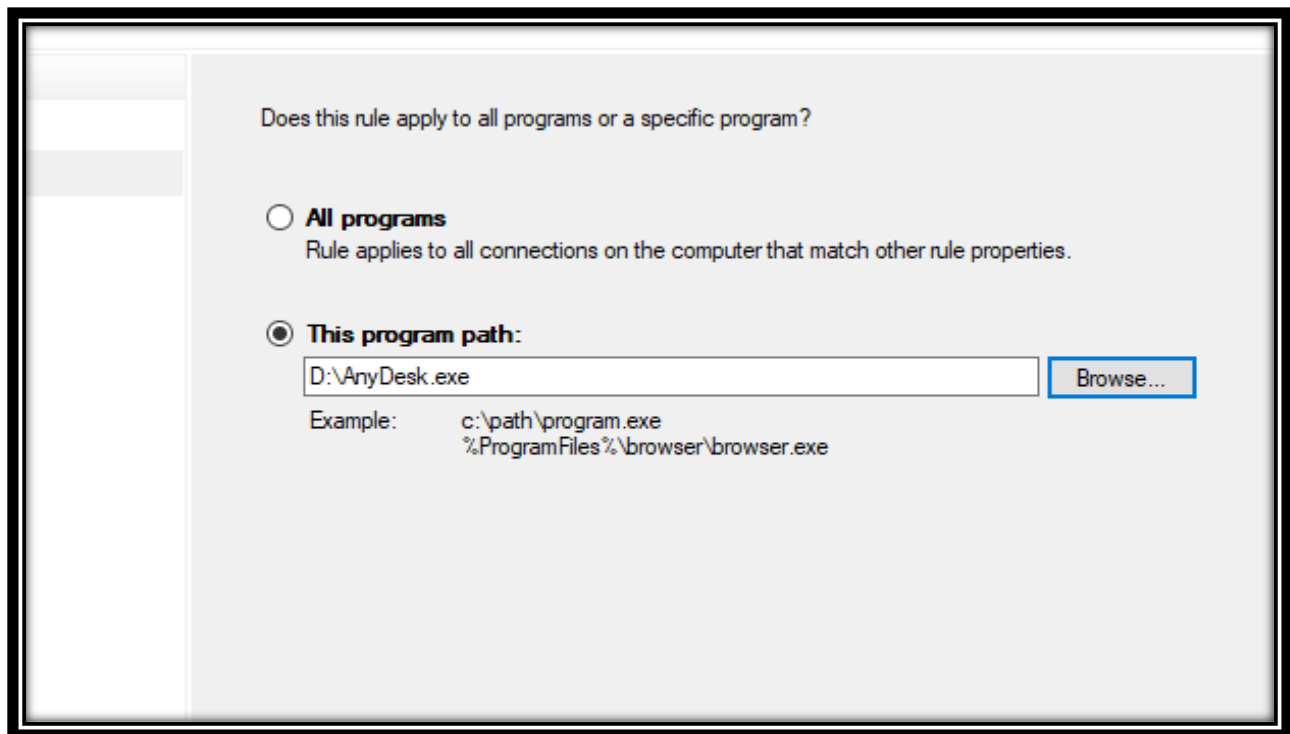

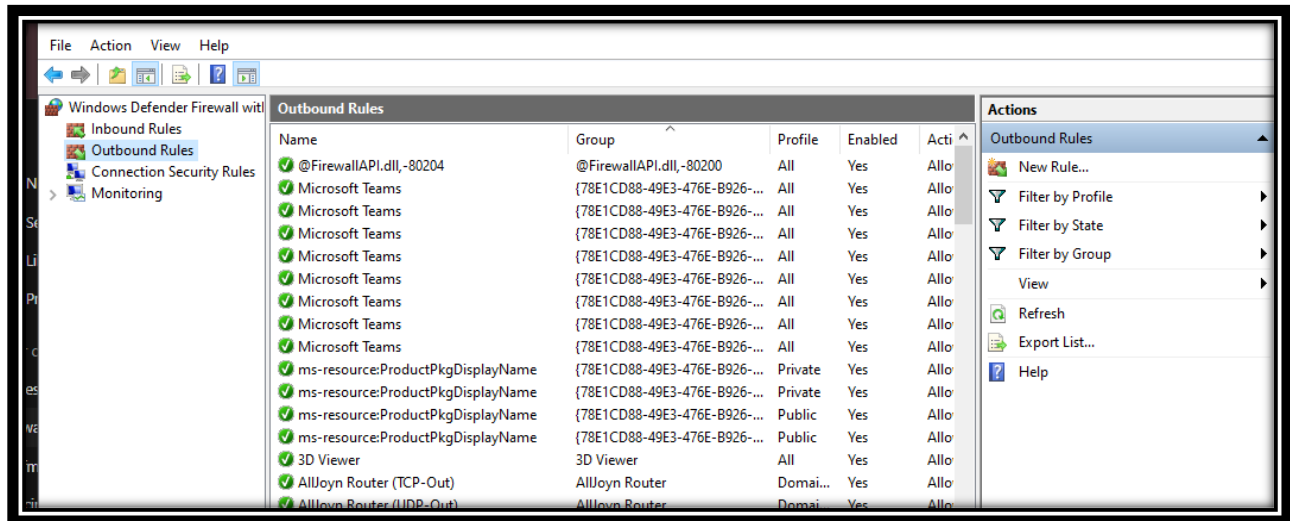

Here, applications can be added to or removed from the firewall simply by enabling or disabling them through the checkboxes.

# Noor ul Huda: Cyber Security Internee Batch 27

## Step 4: Allowing/ Blocking of Specific Port

We can create new outbound or inbound rules by clicking on new rules.
